Six Ps topics for discussion at Stage 2 start

Positive
- Motivation to quality improvement
- Encouragement to risk-taking and innovations
- Continuous assessment and reflection

Pedagogical use of ICT
1) Which technologies do you find most useful for your work at the moment?
2) How do you look for new T-S-L ideas?
3) How do you keep yourself up-to-date in the T-S-L use of ICT?

Flexible pedagogical framework
1) What is your innovative pedagogical drive for e-resource design and development?
2) How do you encourage your team to create innovative practices, and to use emerging technologies?

Main Making the T-S-L culture and process visible
1) How do you create an atmosphere, in which everyone can freely express their ideas, opinions and creativity, and challenge those of the others, without a risk of being criticised or rejected, and best contribute to the design, development process and the success of your team?
2) How do you share ideas among your school team? How do you document the collaborative design process?
3) What are the lessons learned in the process so far? What has worked well? What would you do differently in the future?
